

PRODUCT DATA SHEET

Item Number : CPFH100
Item Name : SW Chemical FineFibre Mat Pads
Liquids Absorbed : Acids, Caustics & unknown liquids
Contents/Package : 100 pads/package
Colour : Yellow

Dimensions : 49 cm x 38 cm
Composition : 100% Polypropylene

Absorbency : 100 L/Package

Weight : 5.9 Kg

Description

- 100% polypropylene mat quickly absorbs nearly any type of caustic, hazardous or unknown liquid — including acids, bases, solvents and chemicals
- Colour-coded Safety Yellow for fast identification; know exactly what you're reaching for in an emergency spill situation
- Top and bottom layers of FineFibre are built of densely-woven, small-diameter strands of fibre to increase surface area — enabling the Mat to quickly soak up liquids on contact before they can spread
- Random assembly of large-diameter MeltBlown polypropylene fibres creates a high-loft inner layer that absorbs high volumes of liquid fast
- HeavyWeight construction offers the greatest sorbency
