

AXIS

Inspired by sports eyewear

The latest creation from the Bollé Safety design team is the AXIS eye shield, an outgrowth of the world-renowned sports range. Real barrier against attack, the AXIS eye shield is so light it seems they are not even there but still gives the wearer a real sense of safety and well-being. Panoramic vision and bi-material co-injected temples for optimum confort.

Lens	PC
Frame	PC and TPR
Temples	standard
Pivoting temples	yes
Integrated side protections	yes
Upper protection	no
Lower protection	no
Nose	adjustable soft PVC
Weight	28 g
Packaging	Box of 10 pieces
